

Kraken Sign Up

1. Make sure you are visiting the official Kraken site on <https://www.kraken.com>.
2. Click on the Create Account button in the upper-right corner.
Place the first GIF here.
3. Enter your email address, a username and a strong password on the signup form. Note: the username cannot be changed.
4. Read their [Terms of Service](#) and [Privacy Policy](#), tick the agree box (if you agree), and then click the Create account button.
5. You should receive an activation email containing an activation key.
6. Enter your activation key on the account activation form or alternatively complete activation by clicking the link in the email.
Keep the second GIF (the one with the email thing) here.
7. Confirm your password, complete the captcha if asked and click the Activate Account button.
8. Congratulations! You have successfully created your Kraken account and you're ready to get started.
